INTRODUCTION

The 2005 IEEE/WIC/ACM International Conference on Intelligent Agent Technology (IAT'05) will be jointly held with the 2005 IEEE/WIC/ACM International Conference on Web Intelligence (WI'05) (<http://www.hds.utc.fr/WI05/>). The IEEE/WIC/ACM 2005 joint conference is sponsored and organized by IEEE Computer Society Technical Committee on Computational Intelligence (TCCI) (<http://www.cs.uvm.edu/~xwu/tcci/index.shtml>), Web Intelligence Consortium (WIC) (<http://wi-consortium.org>), and ACM-SIGART (<http://www.acm.org/sigart/>).

The upcoming meeting in this conference series follows the great success of IAT-99 held in Hong Kong in 1999, IAT-01 held in Maebashi City, Japan, IAT-03 held in Halifax, Canada, and IAT-04 held in Beijing, China.

The topics and areas include, but not limited to:

- ✦ Agent Systems Modeling and Methodology
- ✦ Autonomous Knowledge and Information Agents
- ✦ Autonomous Auctions and Negotiation
- ✦ Autonomy-Oriented Computing (AOC)
- ✦ Distributed Intelligence
- ✦ Distributed Problem Solving
- ✦ Learning and Self-Adapting Agents

All submitted papers will be reviewed on the basis of technical quality, relevance, significance, and clarity. Note that IAT'05 will accept ONLY on-line submissions, containing PDF (PostScript or MS-Word) versions.

The conference proceedings will be published by the IEEE Computer Society Press. IAT'05 also welcomes Industry/Demo-Track submissions, Workshop and Tutorial proposals. More detailed instructions and the On-Line Submission Form can be found from the IAT'05 homepages: <http://www.hds.utc.fr/IAT05> or <http://www.comp.hkbu.edu.hk/IAT05>.

A selected number of IAT'05 accepted papers will be expanded and revised for inclusion in Web Intelligence and Agent Systems: An International Journal (<http://wi-consortium.org/journal.html>) and in Annual Review of Intelligent Informatics (<http://www.wi-consortium.org/annual.html>). The best paper awards will be conferred on the authors of the best papers at the conference.
