Suggested Theme in this year

- Explore geosocial networking
  - Use location based service to find your friends
- Web mapping service
  - Visualize dynamic data on map

Participants are encouraged to share your idea or your implementation

Suggested Theme in this year

- For geosocial networking
  - May require Android Phone / iPhone / Windows Phone
- For Web mapping service
  - May use Google Maps / Yahoo Maps / Bing Maps / OpenStreetMap
- HTML 5
  - This may be used for implementing your idea.

Latest and hottest IT topic

- Certain latest and hottest IT topic will be selected for discussion in each gathering
- Participants can propose their own topics before gathering

Software of the year competition

- Aims
  - Show your talent
  - Showcase what you have learnt
- Scope: Related to the theme
- Team size: 1-3 people
- Period: Till Jul 2011
- Prizes include champion, 1st & 2nd runner up

Make SIG becomes more successful

- The SIGIS relies on your active participation
- Try to **think** and **raise questions** related to IT (esp. those related to the theme) in your daily life
  - *Any thing you find it interesting but feel puzzled by how it could work?*
- Try to do preparation on the topics so that you could share your findings / ideas with other participants

Recent hot topics

- Your view on Windows Phone 7
- Facebook Email, Instant Message, SMS integration
