Hong Kong Baptist University
Department of Computer Science

2017 Summer PhD Research Experience Programme

Programme Aims
• To visit the Hong Kong Baptist University (HKBU) campus and learn the cutting-edge research being undertaken in the Department of Computer Science
• To engage in a frontier research project under the supervision of a faculty advisor
• To understand the Hong Kong PhD Fellowship Scheme (HKPFS) established by the Research Grants Council (RGC) and research scholarships offered by the Department of Computer Science and HKBU
