## TOPICS

- Biometrics: Questions & Answers
- Completely Contactless Finger Knuckle Identification for Real-World Applications
- Constrained and Cooperative Face Recognition
- Face Presentation Attack Detection
- Federated Learning for Biometrics
- Fusion of Multimodal Biometrics
- Hands-On Fingerprint Recognition
- Iris Recognition
- Law Enforcement Applications: Requirement, Challenges and Solutions
- Overview on Biometrics Data Analysis and Recognition
- Privacy and Data Integrity in Biometrics
- Remote Face Recognition
- Soft Biometrics and Gait
- Trustworthy Biometrics
- Unconstrained Face Recognition
